PROFESSIONAL SUMMARY Dedicated Computer Science professional and current third-year student with a strong academic track record (80.8% cumulative average) and hands-on experience in full-stack web development, software design, and artificial intelligence architectures. Skilled in object-oriented programming, modern web frameworks, and database systems. Possesses proven leadership experience managing student technology societies and developing custom software solutions. Seeking admission into the BSc Honours in Computer Science programme to further develop expertise in advanced software engineering, AI, and data science.

TECHNICAL SKILLS

- **Programming Languages:** C++, C#, JavaScript, Python, Java, PHP 8.x
- **Web Development:** React.js, Next.js, Node.js, Express.js, HTML, CSS, Tailwind CSS
- **Mobile & Game Development:** Flutter, Unity, Unreal Engine (Blueprints)
- **Databases & Data Tools:** MySQL, SQL, SQLite, MongoDB, Pandas
- **Tools & Platforms:** .NET/WPF, Git, GitHub, Visual Studio Code, Vercel, Apache

EDUCATION Bachelor of Science in Computer Science Eduvos, Midrand |
Expected Graduation: December 2026

- **Academic Average:** 80.8% (Distinction Level)
- **Key Modules:** Artificial Intelligence Techniques and Ethics (Distinction), Object-Oriented Programming (C++ and C# - Distinction), Advanced Networking and Network Security (Distinction), Software Design,

Database Systems, Cloud Computing Technologies, Computer Architecture.

National Senior Certificate (Bachelor's Pass) Hoërskool Elspark | 2019 – 2023

PROJECT EXPERIENCE HustleHub SA (Secure C2C Marketplace)

- Engineered a secure PHP/MySQL marketplace utilizing role-based access control (Buyer, Verified Seller, Master Admin) and KYC identity verification.
- Integrated a SafePay Escrow payment system via the PayFast API to protect community transactions.
- Implemented dynamic inventory logic and rental calendar management to prevent booking overlaps.

Interactive Murder Mystery Web Portals (Neon Peak OS & Aegis Industries)

- Designed and developed immersive, lore-driven web applications (Next.js, React) featuring custom user interfaces, interactive logic puzzles, and suspect dossiers.
- Engineered complex multi-page mystery experiences simulating corporate espionage and tech-themed dashboards.
- Links: Neon Peak OS | Aegis Industries

Anime Club Manager System | June 2026

- Engineered a .NET/WPF desktop application using C#, Entity Framework, and SQLite to manage university club attendance and dynamic gaming sessions.
- Developed a custom tournament module featuring a synchronized 10-7-5-3 point matchmaking system and integrated Jeopardy-style interactive trivia modes.

Project KLINQLY (Web Application Platform) | Jan 2026

- Architected a comprehensive project proposal and technical specifications document for a large-scale web application platform.

Full-Stack E-Commerce Platform (MERN Stack)

- Developed a scalable full-stack e-commerce application utilizing React, Node.js, Express, and MongoDB.
- Implemented an admin panel with a restricted 3-kilometer delivery radius logic for precise product and inventory management.
- Designed RESTful APIs and handled secure user authentication and data validation.

Abundant Rain Church Platform (<https://abundantrainvoslooruscampus.org>)

- Built a dynamic full-stack website allowing administrators to manage sermons, events, and announcements efficiently.

QND-Eventiques Portfolio Website (<https://qnd-eventiques.vercel.app>)

- Designed and developed a responsive, high-performance portfolio website for an event planning business.

LEADERSHIP & EXTRACURRICULAR EXPERIENCE

- **Deputy Lead, Information Technology Student Society (ITSS):** Co-lead the academic faculty's IT student body. Organized and executed major campus networking events, including "Project Hub: IT Networking Edition" (May 2026) and winter student gatherings.
- **President, University Anime Club:** Founded and manage weekly sessions, integrating custom software to handle group logistics.
- **Student Athlete:** Active member of the university basketball team (April 2026 – Present), balancing rigorous academic requirements with high-level team sports.

ACHIEVEMENTS & CERTIFICATIONS

- Top Achiever Certification – First and Second Block (2024)
- 3rd Place – 2025 BASE x Eduvos Coding Club Hackathon
- Finalist – 2025 Eduvos HackJam
- Achieved 17 distinctions across first- and second-year modules
